Annual Index

Volume IV

January 1-116
April 117-214
July 215-336
October 337-448

Abler, Ronald, John S. Adams, and Peter Gould, *Spatial Organization*, reviewed by H. H. McCarty, 428-29.

Amedeo, Douglas, review of *Introduction to Scientific Geographic Research*, 110-12.

Angel, Shlomo, and Geoffrey M. Hyman, Transformations and Geographic Theory, 350-67.

Barber, G. M., *see* MacKinnon, Ross D.

Beavon, K. S. O., and A. V. Hall, A Geotaxonomic Approach to Classification in Urban and Regional Studies, A Comment, 407-415.

Books Received, 438-39.

Book Reviews, 108-114, 204-208, 285-322, 428-37.

Boots, Barry N., Arthur Getis, and George Hagevik, Evaluation of An Air Pollution Intensity Model in the Northeast New Jersey-New York City Area, 000-00.

Bounded Planar Networks: A Theory of Radial Structures, Keith J. Tinkler, 5-33.

Brown, Lawrence A., *see* Holmes, John.

Casetti, Emilio, Generating Models by the Expansion Method: Applications to Geographical Research, 81-91: Competitive Spatial Equilibrium by Mathematical Programming: An Alternative Theoretical Frame of Reference, 368-72.

Cliff, Andrew, and Keith Ord, Testing for Spatial Autocorrelation among Regression Residuals, 267-84.

Collins, Lyndhurst, review of *Matrix Methods in Urban and Regional Analysis*, 429-31.

Court, Arnold, Heterodox Hydrology, 194-96.

Dean, Robert D., William H. Leahy, and David L. McKee, eds., *Spatial Economic Theory*, reviewed by M. J. Webber, 108-10.

Discussion Papers, 441-44.

Distance and Directional Bias in Migration Patterns in Depreciating Metropolitan Areas, Bryn Greer-Wootten and G. M. Gilmour, 92-97.

Dueker, Kenneth J., Framework for Encoding Spatial Data, 98-105.

Earickson, Robert, Richard H. Jones, and Brian J. Murton, An Extension of Spatial Analysis to Social Behavior, 65-80.

Environmental Psychology, edited by Harold M. Proshansky, William H. Ittelson, and Leanne G. Rivlin, reviewed by David Stea, 431-34.

Evaluation of an Air Pollution Intensity Model in the Northeast New Jersey-New York City Area, Barry N. Boots, Arthur Getis, and George Hagevik, 373-91.

Explanation in Geography, by David Harvey, reviewed by Stephen Gale, 285-322. Reply by David Harvey, 323-35.

Dean, Robert D., William H. Leahy, and David L. McKee, eds., *Spatial Economic Theory*, reviewed by M. J. Webber, 108-10.

Discussion Papers, 441-44.

Distance and Directional Bias in Migration Patterns in Depreciating Metropolitan Areas, Bryn Greer-Wootten and G. M. Gilmour, 92-97.

Dueker, Kenneth J., Framework for Encoding Spatial Data, 98-105.

Earickson, Robert, Richard H. Jones, and Brian J. Murton, An Extension of Spatial Analysis to Social Behavior, 65-80.

Environmental Psychology, edited by Harold M. Proshansky, William H. Ittelson, and Leanne G. Rivlin, reviewed by David Stea, 431-34.

Evaluation of an Air Pollution Intensity Model in the Northeast New Jersey-New York City Area, Barry N. Boots, Arthur Getis, and George Hagevik, 373-91.

Explanation in Geography, by David Harvey, reviewed by Stephen Gale, 285-322. Reply by David Harvey, 323-35.

Extension of Spatial Analysis to Social Behavior, An, Robert Earickson, Richard H. Jones, and Brian J. Murton, 65-80.

Facility Location under Maximum Travel Restrictions: An Example Using Day Care Facilities, John Holmes, Forrest B. Williams, and Lawrence A. Brown, 258-66.

Flow-linkage Construction for Spatial Trend Recognition, Mark S. Monmonier, 392-401.

Forrest B. Williams, *see* Holmes, John.

Framework for Encoding Spatial Data, Kenneth J. Dueker, 98-105.

Gale, Stephen, Inexactness, Fuzzy Sets and the Foundations of Theoretical Geography, 337-49; review of *Explanation in Geography*, by David Harvey, 285-322.

Gauthier, H. L., *see* Semple, R. K.

Generating Models by the Expansion Method: Applications to Geographical Research, Emilio Casetti, 81-91.

Geographical Variances, H. Moellering and W. Tobler, 34-50.

Geotaxonomic Approach to Classification in Urban and Regional Studies, A, A Comment by K. S. O. Beavon and A. V. Hall, 407-415.

Getis, Arthur, *see* Boots, Barry N.

Gilmour, G. M., *see* Greer-Wootten, Bryn.

Goodchild, M. F., The Trade Area of a Displaced Regional Lattice Point, 105-07.

Greer-Wootten, Bryn, and G. M. Gilmour, Distance and Directional Bias in Migration Patterns in Depreciating Metropolitan Areas, 92-97.

Hagevik, George, *see* Boots, Barry N.

Hall, A. V., *see* Beavon, K. S. O.

Hanke, Steve H., review of *Perspectives on Resource Management*, 112-14.

Haring, L. Lloyd, and John F. Lounsbury, *Introduction to Scientific Geographic Research*, 110-12.

Harvey, David, *Explanation in Geography*, reviewed by Stephen Gale, 285-322; On Obsfucation in Geography, A Comment on Gale's Heterodoxy, 323-35.

Haynes, Kingsley E., review of *Perspectives in Geography: Models of Spatial Variation*, 434-35.

Heterodox Hydrology, Arnod Court, 194-96.

Heterodox Hydrology, A Reply, S. T. Wong, 197-203.

Holmes, John, Forrest B. Williams, and Lawrence A. Brown, Facility Location under Maximum Travel Restriction: An Example Using Day Care Facilities, 258-66.

Hyman, Geoffrey M., *see* Angel, Shlomo.

Inexactness, Fuzzy Sets, and the Foundations of Behavioral Geography, Stephen Gale, 337-49.

Information Theory and Geography, Bernard Marchand, 234-57.

Introduction to Scientific Geography by L. Lloyd Haring and John F. Lounsbury, reviewed by Douglas Amedo, 110-112.

Isard, Walter, and Thomas W. Langford, *Regional Input-Output Study: Recollections, Reflections, and Diverse Notes on the Philadelphia Experience*, reviewed by Mark D. Menchik, 204-208.

Jones, Richard H., *see* Earickson, Robert.

L'Esperance, Wilford L., review of *Regional Planning: The Appalachian Experience*, 435-37.

Lee, Yuk, Stochastic Model of the Geometric Patterns of Urban Settlements and the Urban Spheres of Influence, A, 51-64.

McCarty, H. H., review of *Spatial Organization*, 428-29.

McConnell, Harold, and David W. Yaseen, eds., *Perspectives in Geography: Models of Spatial Variation*, reviewed by Kingsley E. Haynes, 434-35.

MacDougall, E. Bruce, Optimal Generalization of Mosaic Maps, 416-23.

MacKinnon, Ross D., and G. M. Barber, A New Approach to Network Generation and Map Representation: The Linear Case of the Location-Allocation Problem, 150-68.

Marchand, Bernard, Information Theory and Geography, 234-57.

Markov Decision Model for Network Flows, A, C. D. Morley and J. B. Thornes, 180-93.

Mathias, Malcom H., *see* Robinson, Geoffrey.

Matrix Methods in Urban and Regional Analysis, by Andrei Rogers, reviewed by Lyndhurst Collins, 429-31.

Menchik, Mark D., review of *Regional Input-Output Study: Recollections, Reflections, and Diverse Notes on the Philadelphia Experience*, 204-08.

Moellering, H., and W. Tobler, Geographical Variances, 34-50.

Monmonier, Mark S., Flow-linkage Construction for Spatial Trend Recognition, 392-406.

Morley, C. D., and J. B. Thornes, A Markov Decision Model for Network Flows, 180-93.

Murton, Brian J., *see* Earickson, Robert.

New Approach to Network Generation and Map Representation: The Linear Case of the Location-Allocation Problem, A, Ross D. MacKinnon and G. M. Barber, 156-68.

On Obsfucation in Geography, A Comment on Gale's Heterodoxy, David Harvey, 323-35.

On Transforming to Eliminate Clusters, Geoffrey Robinson and Malcomb H. Mathias, 424-27.

Ord, Keith, *see* Cliff, Andrew.

O'Riordan, T., *Perspectives on Resource Management*, reviewed by Steve H. Hanke, 112-14.

Optimal Generalization of Mosaic Maps, E. Bruce MacDougall, 416-23.

Patterns of Drainage Areas with Random Topology, Christian Werner, 119-33.

Perspectives in Geography: Models of Spatial Variation, edited by Harold McConnell and David W. Yaseen, reviewed by Kingsley E. Haynes, 434-35.

Perspectives on Resource Management, by T. O'Riordan, reviewed by Steve H. Hanke, 112-14.

Population Growth and Town Location in an Agricultural Community: Iowa 1840–1960, M. J. Webber, 134-55.

Proshansky, Harold M., William H. Ittelson, and Leanne G. Rivlin, eds., *Environmental Psychology*, reviewed by David Stea, 431-34.

Regional Input-Output Study: Recollections, Reflections, and Diverse Notes on the Philadelphia Experience, by Walter Isard and Thomas W. Langford, reviewed by Mark D. Menchick, 204-08.

Regional Planning: The Appalachian Experience, by Donald N. Rothblatt, reviewed by Wilford L. L'Esperance, 000-00.

Robinson, Geoffrey, and Malcom H. Mathias, On Transforming to Eliminate Clusers, 000-00.

Rogers, Andrei, *Matrix Methods in Urban and Regional Analysis*, reviewed by Lyndhurst Collins, 000-00.

Rothblatt, Donald N., *Regional Planning: The Appalachian Experience*, reviewed by Wilford L. L'Esperance, 000-00.

Semple, R. K. and H. L. Gauthier, Spatial-Temporal Trends in Income Inequalities in Brazil, 119-79

Spatial Economic Theory, edited by Robbert D. Dean, William H. Leahy, and David L. McKee, reviewed by M. J. Webber, 108-10.

Spatial Organization, by Ronald Abler, John Adams, and Peter Gould, reviewed by H. H. McCarty, 428-29.

Spatial-Temporal Trends in Income Inequalities in Brazil, R. K. Semple and H.L. Gauthier, 169-79.

Statement of Management, Ownership, and Circulation, 115.

Stea, David, review of *Environmental Psychology*.

Stochastic Model of the Geometric Patterns of Urban Settlements and the Urban Spheres of Influence, A, Yuk Lee, 51-64.

Tellier, Luc-Normand, The Weber Problem: Solution and Interpretation, 215-33.

Testing for Spatial Autocorrelation among Regression Residuals, Andrew Cliff and Keith Ord, 267-84.

Thornes, J. B., *see* Morley, C. D.

Tinkler, Keith, Bounded Planar Networks: A Theory of Radial Structures, 5-33.

Tobler, W., *see* Moellering, H.

Trade Area of a Displaced Regional Lattice Point, The, M. F. Goodchild, 105-07.

Transformations and Geographic Theory, Shlomo Angel and Geoffrey Hyman 350-67.

Weber Problem: Solution and Interpretation, The, Luc-Normand Tellier, 000-00.

Webber, M. J., Population and Town Growth in an Agricultural Community: Iowa 1840–1960, 134-55; review of *Spatial Economic Theory*, 108-10.

Werner, Christian, Patterns of Drainage Areas with Random Topology, 119-33.

Wong, S. T., Heterodox Hydrology; A Reply, 197-203.
